

## **Money to research the health of people with intellectual disability**

The Government gives money to **research** the health of people with intellectual disability.

**Research** means people look into an issue to find out more about it.

We are doing a project to look into what types of research the Government gives money for.

# Why are we doing this project

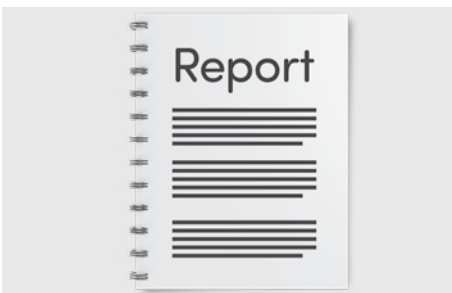

There are lots of things to research about the health of people with intellectual disability.

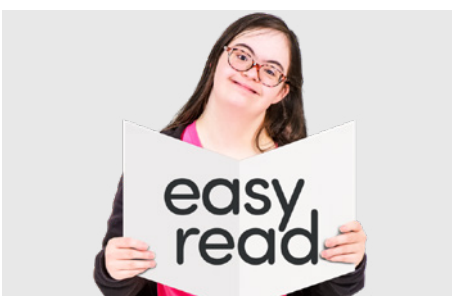

We will find out what sort of research

- Gets money from the government
- Does not get any money.

At the end of our project we will make a report that says what we found out.

The report will be in Easy Read.

## About this information

National Centre of Excellence in Intellectual Disability Health made this information.

Go to [www.nceidh.org.au](http://www.nceidh.org.au)

CID made this information Easy Read in February 2025.

CID is part of the National Centre of Excellence in Intellectual Disability Health **consortium**.

A **consortium** is a group of organisations that work together to get a goal.
